## **ENVIRONMENT & SOCIAL**

### **SCOPE**

This policy applies to Li-S Energy Limited (“Li-S Energy” or “Company”).

### **INTRODUCTION**

Li-S Energy is committed to being transparent with its environmental and social risks so that its current and prospective shareholders can properly access the risk of investing in the Company.

### **POLICY STATEMENT**

Li-S Energy identifies, analyses, evaluates, monitors and reports on any material exposure to environmental or social risks as part of the Risk Oversight and Management Framework. Li-S Energy is committed to integrating environmental and social considerations into its business activities as well as contributions to sustainable development and reporting on these by:

- Setting strategic environmental and social objectives, such as offering new products that address environmental and social sustainability;
- Communicating environmental and social expectations to all staff, shareholders and other external stakeholders;
- Committing to improving the overall environmental and social performance of our business through enhanced risk management;
- Maximising the use of all resources and minimising waste, wherever possible;
- Ensuring adherence to all federal, state and local environmental agency regulations and codes of practice;
- Initiating and reviewing environmental objectives and measurable targets to all appropriate activities;
- Continuous improvement in its environmental and social performance;
- Promoting staff awareness of environmental and social issues and providing the training of resources that will enable them to actively contribute to fulfilling our environmental and social objectives and obligations; and
- Assisting, where possible, government agencies and community groups engaged in environmental and social activities.
